

Nature Trail Rubbing Post

A great way to engage children with the natural environment. A synthetic stone plaque, with a laser-etched motif is mounted on a green oak post. The designs include birds, insects, trees, plants and marine life or can be made to order. Rubbing works well with an HB pencil. Choose from the list below or contact us for bespoke designs.

Green oak post 120mm x 120mm x 1.2m finished with sanded edges and 22.5 degree angled top. The plaque is 100mm x 100mm screwed on top.

Enhance your trail with a colourful A4 information panel incorporating a rubbing plaque. [See www.theacornworkshop.co.uk](http://www.theacornworkshop.co.uk) for price information.
